Contract Lifting

Hird Ltd delivers contract lifting services throughout the UK.

We are committed to supplying the best possible service, starting with a site survey, through to detailed planning, risk analysis and the logistics of lifting and moving the equipment, machinery or materials specified.

Customers come to Hird from a wide range of industries including petrochemical, food production, aerospace and fabrication.

We have a large and varied fleet of **mobile, crawler and electric cranes**, and the expertise needed to work in all environments and conditions.

Hird provides trained and qualified personnel to ensure that its services comply with **BS7121 Safe Use of Cranes** and **PUWER, LOLER** regulations within the contract price quoted.

Hird also provides free, no obligation site surveys, with experienced teams ready to assist and advise you on the best solution for your lifting project.

Contact your friendly contract lifting experts at Hird today on 01482 227333.

Machinery Moving

Hird Ltd is one of the UK's leading machinery removal and installation specialists and prides itself on its high level of safety and efficiency.

We have many satisfied customers in a range of sectors including petro-chemical, aerospace, heavy industrial and food manufacturing.

We can carry out the movement of single items through to large turn key CDM managed projects, nationally or internationally.

With our large range of zero emissions and low noise electric cranes, we can work safely and effectively in live industrial environments with high risk operating conditions, such as food factories and petro-chemical sites.

Hird provides trained personnel to ensure that its machine moving services comply with **BS7121 Safe Use of Cranes, PUWER** and **LOLER regulations** within the price quoted.

Contact your friendly machinery moving experts at Hird today on 01482 227333.

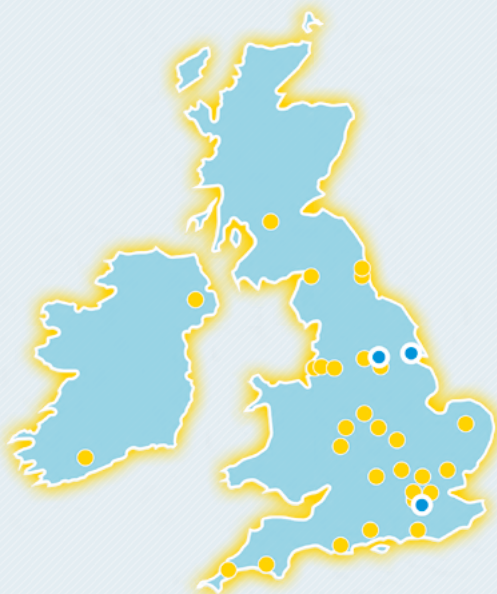

Hird provides free, no obligation site surveys, with experienced teams ready to assist and advise you on the best solution to suit your machinery moving requirements.

Moving

Our services range from moving single machines to comprehensive factory relocation
