Timber Billets and Outrigger Mats

Cranes with outriggers require a solid platform for the crane's safe operation and efficient use.

Hird provides its customers with a range of timber billets and outrigger mats to use in conjunction with any crane that has outriggers.

Statistics show that at least 50% of accidents involving cranes occur because outriggers have not been set up correctly.

These are essential accessories to spread loads, reduce floor loading, and ensure a more stable lifting base.

Timber Billets & Sleepers

Timber billets and sleepers for placement under a crane's outrigger feet, spread the load to create a more stable lifting base.

- Made from high quality timber for durability
- Spread load to create more stable lift base
- Help reduce floor loadings

Various sizes available,
depending on floor loading

We also stock timber (bog) mats

Outrigger Mats

Outrigger (crane) mats for placement under a crane's outrigger feet. These mats spread the load to reduce floor loading.

- Made from high resistance polyethylene for durability
- Spread load to create more stable lift base
- Help reduce floor loadings

Various sizes available,
depending on floor loading

If you have any doubts at all about floor loading, or to specify the correct machine for your project, please call the Hird lifting team on 0203 174 0658.
