

# DXRT600B

GRC (Glass Reinforced Concrete) & Stone Vacuum Lifter

[www.hird.co.uk](http://www.hird.co.uk)

If you're lifting stone or glass reinforced concrete with varying porosity, then the DXRT600B Vacuum Lifter is a perfect solution. With its robust design & safety features is a fantastic all-rounder

- Adjustable lift arm
- Constant runner or stop start (depending on porosity)
- Two independent vacuum systems
- Dual action 'push and slide' release system machine

#### Safety note:

All stone & GRC materials require individual testing prior to lifting operations taking place.

## 600kg

### Technical Specification

|                          |                                 |
|--------------------------|---------------------------------|
| Max. lifting capacity    | 600kg                           |
| Weight of lifter         | 185kg                           |
| Number of suction cups   | 2                               |
| Suction cup dimension    | 400mm x 700mm (x2 pads)         |
| Power source inc charger | Battery (110v on-board charger) |

### Dimensions (mm)
