

# Hand Cups

## Glass Lifting Accessories

Glass lifting accessories can make a big difference in making sure that a job can be carried out quickly and effectively.

Hird can supply a number of useful accessories. These include webbing straps and slings, bow shackles, corner protection blocks, shrouds, pump-activated suction lifters and lever-activated suction lifters.

All of our glass lifting accessories are ideally suited for use with the Hird range of glass lifting and glass handling equipment.

**SWL 120kg**

### PH3001 / BO601G

Veribor® Pump-activated suction lifter made of plastic

- Eye-catching vacuum safety indicator
- Higher gripping area for better carrying comfort
- Quick vacuum generation and release

Suction pad	214 mm Ø
Load capacity	120 kg
Lifting direction	parallel
Surface geometry	flat

**SWL 90kg**

### PH3002 / BO603.1G

Veribor® Cup suction lifter made from plastic

- Large non-slip gripping area
- Ergonomic, user-friendly levers
- 80% higher capacity than 2-cup suction lifter

Suction pad	120 mm Ø
Load capacity	90 kg
Lifting direction	parallel
Surface geometry	flat

**SWL 50kg**

### PH3003 / BO602.1G

Veribor® 2 Cup suction lifter made from plastic

- Large non-slip gripping area
- Ergonomic, user-friendly levers
- Lightweight for heavy tasks

Suction pad	120 mm Ø
Load capacity	50 kg
Lifting direction	parallel
Surface geometry	flat

**SWL 45kg**

### PH3004 / BO602.3G - Curved Glass

Veribor® 2 Cup suction lifter made of plastic with swivel heads and large rubber pads

- Especially high force for curved materials
- Extra large rubber pads
- The release strap on the rubber pad facilitates releasing it from the structure

Suction pad	150 mm Ø
Load capacity	45 kg
Lifting direction	parallel
Surface geometry	curved

**Unsure which hand cup is right for your lift?**

SWL 120kg

SWL 80kg

### PH3005 / BO602.2G - Curved Glass

Veribor® 2 cup suction lifter made of plastic with swivel heads

- Highest carrying comfort for curved panes
- Ideal application, e.g. for windscreens or rear windows in the automotive industry
- Elongated holes in swivel heads for flexible use

Suction pad	150 mm Ø
Load capacity	35 kg
Lifting direction	parallel
Surface geometry	curved

### PH3006 / BO600.1G

Veribor® 1 Cup suction lifter made of plastic

- Ideally suited for small surfaces
- One-hand operable lever system
- Simple and extremely quick handling

Suction pad	120 mm Ø
Load capacity	25 kg
Lifting direction	vertical
Surface geometry	flat

### PH3007 / BO602.40BL

Veribor® Blue line 2 cup suction lifter

- With integrated vacuum indicator

Suction pad	120 mm Ø
Load capacity	60 kg
Lifting direction	parallel
Surface geometry	flat

### PH3008 / B0603.0BL

Veribor® Blue line 3 cup suction lifter

- Universal suction lifter for carrying and lifting different materials.

Suction pad	120 mm Ø
Load capacity	100 kg
Lifting direction	parallel
Surface geometry	flat

### PH3009 / B0501

Veribor® Pump-activated suction lifter made of aluminium

- Aluminium construction with high load capacity for handling large objects.
- Rounded pump taper for quick and easy operation

Suction pad	214 mm Ø
Load capacity	120 kg
Lifting direction	parallel
Surface geometry	flat

### PH3010 / B0601.2 - Curved / Textured Glass

Veribor® Pump-activated suction lifter made of aluminium

- Large 220mm suction pad for curved or textured surfaces.
- Working radius minimum 500mm

Suction pad	220 mm Ø
Load capacity	80 kg
Lifting direction	parallel
Surface geometry	curved - textured
